OUR PROGRAMS

At EFI Flight School, we offer a variety of training programs, all customizable to your schedule with different financing options. They include:

- Private Pilot Certificate (PPL)
- Instrument Pilot Rating (IFR)
- Multi-Engine Training (MEL)
- Commercial Pilot Certificate (CSEL, CMEL)
- Certified Flight Instructor (CFI, CFII, MEI)
- Professional Pilot Program
- Cirrus Flight Training

Start With a Discovery Flight

A Discovery Flight is an unforgettable experience and a great way to see what flying is all about. An EFI-certified flight instructor will be at your side during this one-hour introductory flying lesson. You'll experience what it's like to control the aircraft in climbs, turns, and descents while you enjoy the thrill of piloting an airplane. Discovery Flights start at \$135.

FREQUENTLY ASKED QUESTIONS

How do I start?

The best place to start is with a Discovery Flight. This is a chance for you to experience what it's like to fly an airplane and make sure it's something you'll want to continue doing (you will). After that, proof of citizenship in the form of a birth certificate or US passport and an appointment with us to fill out an enrollment packet is all you will need to start training. It's that simple!

How much does it cost and how long will it take?

Several variables affect the time and cost of learning to fly, including aptitude, frequency of lessons, weather, and type of aircraft. Most students will average somewhere between 55-70 hours of flight time and finish within 4-6 months. The average cost ranges between \$9000 to \$13,000. If you fly more frequently, you'll retain more between lessons and reduce the overall number of flights and cost. EFI offers a pay-as-you-go option as well as affordable training packages and financing options.

How do I pay for my flight training and/or aircraft rental?

Each lesson is billed at the time it is provided so you can pace your training to match your budget. EFI offers "all inclusive" discounted flight training packages (must be paid in full prior to training) as well as pay-as-you-go and financing options.

What are all the services you offer?

In addition to our flight training programs we offer aircraft rental, Rotor to Wings (RTP) training, flight reviews and checkout courses for rustier pilots. EFI is also an authorized testing center for FAA Airman Knowledge Tests.

Can I use my GI Bill at your school?

Yes, serving our veterans is a top priority for EFI! Please visit our website to view our VA Course Catalog or contact us for more information.
